

Help your customers find peace of mind.

Nest Cam IQ

Nest Cam IQ is a best-in-class security camera with top-of-its-class brains. It can identify when someone's in your customer's home, alert them, and zoom in on the person's face.*

Nest Cam Indoor and Outdoor

Nest Cam Indoor and Nest Cam Outdoor look for motion and can listen for sound. If something's up, they can send an alert to a phone. And with Nest Aware (sold separately), your customers get a special alert when the camera sees a person.*

Help your customers stay safe from smoke, carbon monoxide and annoying chirps.

Nest Protect smoke + CO alarm

There's never been a smoke and CO alarm quite like this. Nest Protect looks for fast-burning fires, smoldering fires and carbon monoxide. It also speaks up when there's a problem, can be silenced from the Nest app and will even send a message to your customer's phone in case they're not home.*

Better together.

It all starts with a Nest product: a thermostat that learns, a smoke alarm that talks or a camera that lets your customers see their home from anywhere. Add a second Nest product – or a product that works with Nest – and they'll notice each other. Learn from one another. And help people save energy, get comfortable and stay safe. Effortlessly.
