

Bring the connected home to your customers.

Nest products help save energy, keep families safe and connect people to what's important. Together, they do even more to create a thoughtful home.

Nest Thermostat E and Nest Learning Thermostat

There's a Nest Thermostat for every home. No matter which one your customers choose, they'll get proven energy-saving features and beautiful design. And both can be controlled from a phone.

Compatibility

Nest Learning Thermostat:

Works with 95% of 24V heating and cooling systems, including gas, electric, forced air, heat pump, radiant, oil, hot water, solar and geothermal.

- Up to 3H/2C
- Conventional and heat pump systems with auxiliary and emergency heat (O/B, AUX, E)
- Dual fuel (no remote sensor necessary)
- Humidifier or dehumidifier (HUM, DEHUM)

Nest Thermostat E:

Works with most 24V heating and cooling systems, including gas, electric, forced air, heat pump, radiant, oil, hot water, solar and geothermal.

- 2H/1C or 1H/2C
- Single stage heat pump with auxiliary heat or with furnace heating (O/B)

*Video streaming, video recording, mobile notifications and remote control require working internet and Wi-Fi.

†Familiar face alerts require a Nest Aware subscription, sold separately. Familiar face alerts not available on Nest Cams used in Illinois.
